Introduction

Welcome to the world of Love Hate Inu! If you're a fan of meme tokens that actually provide utility, then you're in the right place. Love Hate Inu is the ultimate voting token that allows you to express your opinions on hot topics and get rewarded for doing so. Our platform provides a unique opportunity for you to engage with important issues and promote healthy discussion, all while contributing to the next meme sensations and earning valuable tokens.

But Love Hate Inu is much more than just a meme token.

We're a project with a mission to provide a platform for people to come together and vote on the issues that matter most. Whether it's politics, entertainment, or social issues, we provide a space for you to make your voice heard and be part of a community that cares about what you think. Our voting system is built on blockchain technology, which ensures that the process is fair, transparent, and secure.

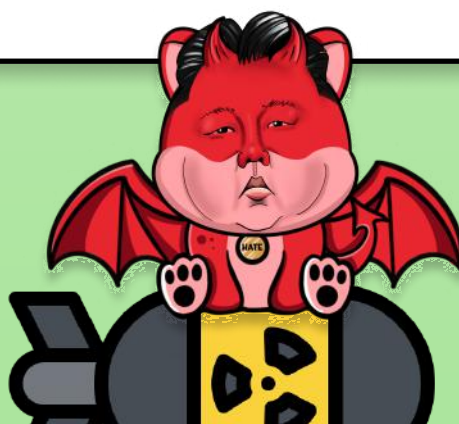

Opportunity

Love Hate Inu is disrupting the online survey market by introducing the first blockchain-powered voting platform capable of recording immutable results via distributed ledger technology that also combines the formidable community and social power of crypto memes.

The global online survey software market size grew from \$2.79 billion in 2022 to \$3.2 billion in 2023 at a compound annual growth rate (CAGR) of 14.6%. According to The Business Research Company, this market is expected to grow to \$5.69 billion by 2027 at a CAGR of 15.5%.

Our advantage of operating in this growth sector is the chance to partner with specific, high-profile brands to run sponsored polls where rewards for voting could include features such as NFT discount codes and branded metaverse assets. Love Hate Inu is built on the Ethereum blockchain, which provides a proven and robust dApp infrastructure already integrated with the metaverse.

Platform

So what is the Love Hate Inu platform exactly?

It is comprised of a few keys areas:

- The User Interface, in which you can connect your wallet to engage in real-time votes, and earn rewards for doing so.
- The Vote Submission platform, in which interested parties can submit new poll ideas for the community to consider.
- The Management Dashboard, where we can ensure that all active votes are conducted in such a way as to protect the community.

We're committed to making an accessible platform, and so the Management Dashboard will also be used to allow us to host polls using funds generated by the platform. This will help us give back to the community with relevant topics that everyone can engage with.

We're sure you'll love it... but maybe you'll hate it?

How It Works

STAKE TO VOTE

Participants of Love Hate Inu can stake tokens to qualify to vote in polls. This staking mechanism prevents spam and manipulation and also makes the voting process anonymous, which means you can express your opinion without fear of judgment or retaliation.

VOTE TO EARN

For staking tokens and voting, all participants receive more tokens as a reward for using the platform. The more you stake and the longer your staking period, the more voting power you accumulate.

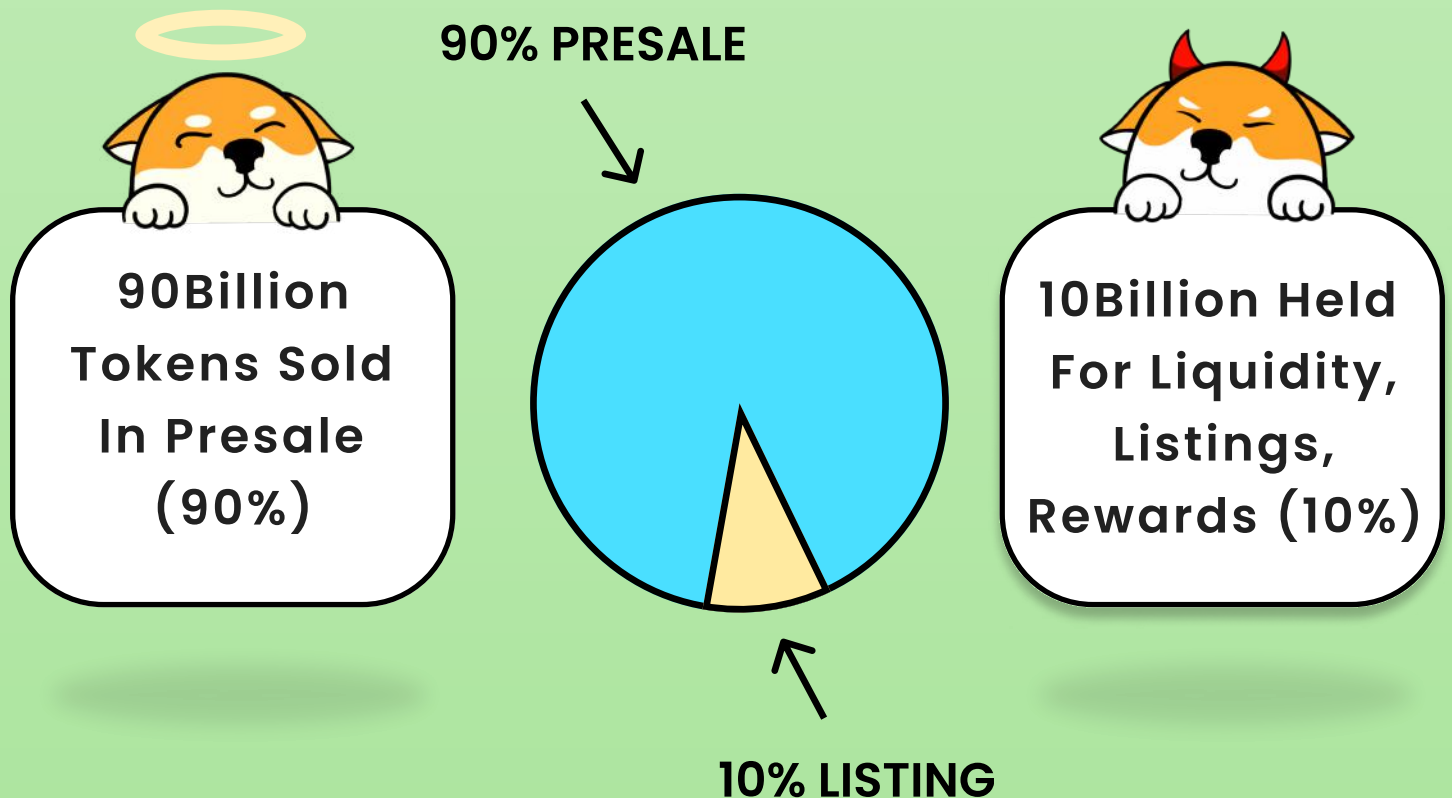

Token

TICKER: \$LHINU

We're selling 90% of the \$LHINU tokens in our presale to ensures the majority of the supply is distributed to community members who believe in the project.

Besides guaranteeing there will be no rugpull, this will create a strong foundation for the project where the community holds a real vested interest in its success.

We will only hold 10% of the tokens to provide liquidity, fund exchange listings, and provide community rewards.

Staking

Staking of tokens is required to use the Love Hate Inu platform. We have implemented a Real-Time Staking mechanism that utilises the 30-day average balance of users to prevent spam and manipulation of the voting system. The unique logic behind our system means that every single user, whether locking up their tokens or not, will gain voting power over time.

By requiring voters to have a certain amount of voting power to participate in votes, we ensure that only those who are truly invested in the platform have a say in the outcome of the vote. This mechanism is designed to prevent bots and spam accounts from influencing the results and ensures the community's opinion is accurately reflected.

Love Hate Inu is built on top of proven and cutting-edge technology. We have taken great care to ensure that our platform is secure and designed to be user-friendly, providing a seamless experience for all.

Roadmap

Q1 2023

- Whitepaper
- Token Launch
- Token Presale
- Social Accounts Launch

Q2 2023

- Voting Algorithm Development
- Platform Signup Launches
- Voting Demos Shown To Public
- Partnership Agreements
- Exchange Listings

Q3 2023

- \$LHINU Staking Launches
- Management Dashboard
- First Vote-To-Earn Rewards Distributed

Q4 2023

- \$LHINU Holders Able To Create Their Own Polls
- Brand Partnerships And Sponsored Polls
- Brand-Sponsored Rewards Mechanisms

Q1 2024

Onwards

- Integrate Voting System Into Major Metaverse Experiences

Disclaimer

Love Hate Inu, including but not limited to the overall project, token, website, smart contracts and any apps as presented in this conceptual paper is not a licensed, unlicensed or exempted financial or payment service of any kind and in any jurisdiction. Any terminology used in this whitepaper, on the website or within the app is intended only as a basic reference, without any effective or legal meaning of the same terms in a regulated and/or financial environment. The Love Hate Inu smart contracts are open-source, security-audited and permanent. The token is strictly a utility token in all jurisdictions and is not and cannot be considered to be a "security" or otherwise regulated token of any kind. The token is not in any way e-money and/or fiat money, or an asset-backed stablecoin, whether global or limited in scope.

This whitepaper taken by itself is not a contract or a contractual agreement of any kind, nor is it an invitation, solicitation or offer to invest in the token or acquire or use tokens in any way and with any expectation of profit therefrom. Any user of Love Hate Inu represents and warrants that such user has received appropriate technical, administrative, regulatory and legal advice before and after accessing and/or reading this whitepaper or the website, and/or using any portion or element of Love Hate Inu, including the token. The user hereby acknowledges and accepts that there is an inherent high risk in accessing, acquiring or using any kind of blockchain and/or crypto system, token, platform, software or interface, including Love Hate Inu, and further disavows any claim of any kind against any community member directly or indirectly involved with Love Hate Inu, for any damage suffered, including total loss.
